

CL1215W/C-2.1, CL1230W/C-2.1

DC Compact Fluorescent Lamps

- 12 V DC Operation
- Extremely high illumination efficiency
- Extremely high number of switching cycles
- Over-Temperature Protection (OTP)
- Standard socket available

Phocos' CFL lamps with 15 W and 30 W power consumption open up a new range for 12 V DC lighting equipment. The life span of the lamp is more than 8,000 hours. The new version of CFL lamps is now regulated by a DC-preheating circuit which makes an extremely high number of switching cycles possible (IEC925).

Furthermore the lamps are equipped with an over-temperature protection (OTP) which causes the lamps to automatically switch off prior to overheating (especially when operated at too extreme environmental conditions) and therefore prevents damage to the lamp. Thus, the product life span is significantly increased.

Of course the lamps comply with the CE standards for low interference with radios and other electronic devices. The special shape of the 15 W tube allows the installation in locations where usually only incandescent bulbs fit.

As the lamps are produced in our own factory, we can provide customized versions on request.

TYPE	CL1215C/W-2.1	CL1230C/W-2.1
Voltage Range	11-15V	11-15V
Nominal Power	15W	30W
Nominal Current	1200mA	2400mA
Light Intensity	950lm (W)	1500lm (W)
	925lm (C)	1500lm (C)
Light Temperature	2700K (W)	2700K (W)
	6400K (C)	6400K (C)
Ambient Temp. Range	-10 to +40° C	-10 to +35° C
Socket	E27 (Edison)	E27 (Edison)
